PRODUCERS AND CONSUMERS UNION.

A Co-operative Movement Among Agriculturalists for Better Prices, for Better Products and Market Facilities.

The Producers' and Consumers' Union is an organization for the handling, buying and selling of all kinds of farm products. The company is planning a co-operative movement among the farmers of this State. It is now doing a large and successful business in the Southwestern States, and the plans and methods of the company is meeting with great favor where it is in operation.

The Producers' and Consumers' Union, a rapidly growing co-operative business movement among the raisers of agricultural products in different sections of the country, intended to secure a lower price for the necessities of life to the consumer as well as a living profit to the producer.

The Producers' and Consumers' Union declares its settled purpose to break up the present system by which the necessities and exactions of rapacious middlemen regulate the market so as to insure the highest price to the consumer and the lowest price to the producer.

It is a purely business association, and its growth and assured permanency is due to the fact that it does not antagonize any local commercial interest, and on the other hand is welcomed and heartily endorsed by country merchants and tradespeople generally, because it opens up a wider market for all products taken in barter for goods, thus enabling them to increase their trade. A community of interest is thus created between the producer and local merchant that insures permanency to the Producers' and Consumers' Union. The United States Producers' Company will be an adjunct to the Producers' and Consumers' Union, not only as a selling agent of its surplus accumulations, but also in carrying out its many other and diverse purposes.

Directors—Joseph M. Trimble, Producers' and Consumers' Union, Memphis, Tenn.; Oscar J. Ivey, stockman, San Antonio, Texas; Hon. Hal. W. Ayer, Ex-Auditor State of North Carolina, New York; W. S. MacKellar, Secretary Union Surety Company, 135 Broadway, New York; Theron B. Dean, President Mohawk Portland Cement Company, Amawalk, New York; J. A. Francolina, President Italian Savings Bank, New York; Hon. G. A. C. Holt, Ex-Lieutenant Governor State of Kentucky, Memphis, Tenn.; D. B. Sickels, Vice-President American Surety Company, New York; Richard B. Stanford, capitalist, Columbia, Cal.; Hon. Charles S. Beardsey, former member New York Legislature, New York; Thomas MacKellar, formerly President 23d Ward National Bank, N. Y.

The officers are Charles S. Beardsey, president; Hal. W. Ayer, Vice-President and General Manager; P. Simonelli, Secretary; R. C. Rivers, Assistant Secretary.

The company has been organized under the laws of the State of New York, with a capital of \$250,000. For further information write the President, New York office, 90 and 92 Broadway, mentioning this paper.

THE WILSON MURDER CASE.

Ends in Mistrial the Defendants Put Under Bond for their Appearance at September Term of Court.

Wilson, N. C., June 30.—A mistrial is the outcome. After many hours spent in deliberation the jury in the Jones' murder case at 9:30 this morning fled into the court room and announced that an agreement was impossible, eight of the jurors being for conviction of the defendants and four standing out for acquittal.

The defendants on trial in this case—Ward, Morgan, Rich, Whitley and Allen—were remanded to the custody of the sheriff in the sum of \$6,000, and his bond was fixed at \$6,000. W. P. Croom's bond remained at \$800. John Pittman not appearing, his bond was fixed at \$6,000. The jury was told to prove their attendance and were discharged.

The cases will not be removed to another county, but will go over until the September term of court, over which Judge Garland Ferguson, of Waynesville, will preside.

Elevator Fell and Many Hurt.

Pittsboro, Pa., June 29.—Twenty-three persons, crowded on an elevator in the establishment of H. J. Heinz & Co., Allegheny, were precipitated from the fifth floor, about 2:30 this afternoon. Sixteen were injured seriously. The St. George cadets of the Bohemia Catholic Society, who are in the city, went to the establishment this afternoon upon the invitation of Mr. Heinz. There was a large attendance of visitors in consequence.

OUR STATE NORMAL AND INDUSTRIAL COLLEGE.

The catalogue of the North Carolina State Normal and Industrial College, advertisement of which appears in another column, shows an enrollment during the past year of 494 college students and 366 pupils in the Practice and Observation School.

The dormitory capacity will be increased before the next annual session opens September 15th, but it will be necessary to give most of the new pupils next year to tuition-paying students, as the rooms must be furnished and the college has no funds with which to furnish them except as it secures funds from tuition.

Students secure free-tuition by agreeing to become teachers in the public or private schools of the State for at least two years after leaving the college, and in no other way can free-tuition be secured. All the tuition students cannot secure board in the dormitories where board is furnished at actual cost, but places will be reserved in the dormitories for 175 tuition students and 175 tuition-paying students. Provision will be made for fifty free-tuition students with board in private families and twenty-five tuition-paying students with board in private families.

Class Legislation.

Shelby Aurora:

Democrats have been crying out against class legislation for years, yet the last legislature, desiring to pose for temperance, and at the same time playing to the hands of Democratic distillers, incorporated certain distilleries as towns, and provided that no other distilleries than those then in operation should be established in those towns. This is class legislation, pure and simple. If it is wrong for A to manufacture liquor, then it is wrong for B. If you are going to throw the law around the distillery for B, why not do the same for A? If you are going to close up the distillery of A, because it is outside an incorporated town, why do you go to the court and incorporate the distillery of B, and thus allow him to run on?

The towns of Shore and Williams are samples of this kind of legislation. Shore contains a distillery, a store, a postoffice and a blacksmith shop. Williams embraces the distillery and farm of Nick Williams. Yet, this party talks against class legislation, and claims to espouse temperance.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box. Sold by druggists.

PRODUCERS AND CONSUMERS UNION.

A Co-operative Movement Among Agriculturalists for Better Prices, for Better Products and Market Facilities.

The Producers' and Consumers' Union is an organization for the handling, buying and selling of all kinds of farm products. The company is planning a co-operative movement among the farmers of this State. It is now doing a large and successful business in the Southwestern States, and the plans and methods of the company is meeting with great favor where it is in operation.

The Producers' and Consumers' Union, a rapidly growing co-operative business movement among the raisers of agricultural products in different sections of the country, intended to secure a lower price for the necessities of life to the consumer as well as a living profit to the producer.

The Producers' and Consumers' Union declares its settled purpose to break up the present system by which the necessities and exactions of rapacious middlemen regulate the market so as to insure the highest price to the consumer and the lowest price to the producer.

It is a purely business association, and its growth and assured permanency is due to the fact that it does not antagonize any local commercial interest, and on the other hand is welcomed and heartily endorsed by country merchants and tradespeople generally, because it opens up a wider market for all products taken in barter for goods, thus enabling them to increase their trade. A community of interest is thus created between the producer and local merchant that insures permanency to the Producers' and Consumers' Union. The United States Producers' Company will be an adjunct to the Producers' and Consumers' Union, not only as a selling agent of its surplus accumulations, but also in carrying out its many other and diverse purposes.

Directors—Joseph M. Trimble, Producers' and Consumers' Union, Memphis, Tenn; Oscar J. Ivey, stockman, San Antonio, Texas; Hon. Hal W. Ayer, Ex-Auditor State of North Carolina, New York; W. S. MacKellar, Secretary Union Surety Company, 135 Broadway, New York; Theron B. Dean, President Mohawk Portland Cement Company, Amawalk, New York; J. A. Francolina, President Italian Savings Bank, New York; Hon. G. A. C. Holt, Ex-Lieutenant Governor State of Kentucky, Memphis, Tenn.; D. B. Sicks, Vice-President American Surety Company, New York; Richard B. Stanford, capitalist, Columbia, Cal.; Hon. Charles S. Beardsley, former member New York Legislature, New York; Thomas MacKellar, formerly President 23rd Ward National Bank, N. Y.

The officers are Charles S. Beardsley, president; Hal W. Ayer, Vice-President and General Manager; P. Simonelli, Secretary; R. C. Rivers, Assistant Secretary.

The company has been organized under the laws of the State of New York, with a capital of \$250,000.

For further information write the President, New York office, 90 and 92 Broadway, mentioning this paper.

THE WILSON MURDER CASE.

Ends in a Mistrial the Defendants Put Under Bond for their Appearance at September Term of Court.

Wilson, N. C., June 30.—A mistrial is the outcome. After many hours spent in deliberation the jury in the Jones' murder case at 9:30 this morning filed into the court room and announced that an agreement was impossible, eight of the jurors being for conviction of the defendants and four standing out for acquittal.

The defendants on trial in this case—Ward, Morgan, Rich, Whitley and Allen—were remanded to the custody of the sheriff in the sum of \$6,000 justified bonds.

NOTICE OF SEIZURE.

Notice is hereby given of seizure of the following property for violation of the internal revenue laws of the United States:

At Snow Hill, N. C., Dec. 26, 1902. 4 bbls corn whiskey 100 gallons, one copper still cap and worm, one wooden condenser, copper cap and lot pipe, 5 fermenters, 3 maz tubs, one beer well, 2 cisterns seized of G. E. Dail.

At Greenville, N. C., Dec. 19, 1902. One jug 5 gallons corn whiskey seized of Charles B. Richardson.

At Franklinton, N. C., May 15, 1903. 20 gallons corn whiskey, seized of W. C. Duke and J. F. Hight.

At Raeford, N. C., May 16, 1903. 3 kegs corn whiskey 100 gallons, one mule, one wagon and set of harness, seized of Maj. McLeod.

At Arbor, N. C., June 5, 1903. 2 packages, 88 gallons, corn whiskey, 2 miles, one two horse wagon, one set of double harness of Samuel Swinson.

Persons claiming the above property will have 30 days to file in my office within thirty days as required by law, or the same will be forfeited to the use of the United States.

IS YOUR HEALTH VALUABLE?

Disease is always a handicap; it unfitts men for business and pleasure—sometimes temporarily, often permanently. Life is a continuous struggle, and the man or woman afflicted with a Chronic Disease is outclassed at every turn. In this age of sharp competition, no man can hope to be successful unless sound in mind and body.

DR. HATHAWAY. I have seen thousands who are carrying around some chronic disease as a badge of shame, which they could easily rid themselves of by the proper treatment. Any honest physician will tell you that these diseases are stubborn and obdurate, and a special knowledge is required to treat them successfully. My special fitness for treating Chronic Diseases has been acquired by twenty years of close application, devoted exclusively to their study and treatment. I have treated more cases than any other physician in the United States, and I thoroughly understand just what is required in each case. My specialty includes all chronic diseases, such as Stricture, Varicose, Blood and Skin Disease, Bladder and Kidney Complaints, Diseases of Women, &c., and my original method of treatment has proven successful in even the most obstinate cases.

I CAN CURE YOU AT HOME.

I have perfected a system of home treatment which enables me to care for you at your own home, as I have thousands of others. Write me fully about your case, and send for complete symptom blanks. Correspondence confidential. Address J. NEWTON HATHAWAY, M.D.

ORIGIN OF SLANG PHRASE.

When He First Understood Meaning of Descriptive Term.

A student in the School of Mines at Columbia university who has just returned from Butte, Mont., was telling Charles Jaimes, proprietor of the Sturtevant, about the atmospheric peculiarities of that mining town of the Far West.

"Put my word," he said, "the air is so charged with mineral gases that after a man has been out for an hour or so in the morning his heart action is so slow that he is obliged to drink plenty of whisky to get it in fairly normal condition."

I was told that there were at one time a few inhabitants of Butte who were teetotalers, but they are all dead. A man can drink a quart of whisky before his midday dinner in that town without feeling in the slightest degree intoxicated. That is why Butte men, when they come East and their heart works normally, get frightfully drunk when they try to drink as they do at home."

"I see," reported Mr. Jaimes. "I understand now what it means to a man that he has a 'beaut' on."—New York Times.

NERVOUS HEADACHE
CURED without any disagreeable results by a dose or two of
At All . . . CAPUDINE
(Liquid.)

SELTZER
The Nicest,
Cleanest,
Most Desirable
LAXATIVE
for family.
Once had always used
when needed.
Now and Still at Druggists.
The Tarrant Co., New York.

SAYING PRAYERS IN ADVANCE.

How Thoughtful Childs Provided for Season's Enjoyment.

Julian Hawthorne sometimes tells an amusing story of the childhood of his daughter Hildegarde.

"Once, when Hildegarde was a little girl," he will begin, "she was elated over the fact that we were all going to spend the summer at the seashore. Particularly was she elated on the night before our departure. Her eyes shone, her cheeks were flushed, and she could do nothing but dance and clap her hands for joy.

After she had gone to her room, I heard her chattering away like an insane person for a long time. I peeped in and saw her on her knees praying. Over and over again she repeated the same prayer.

"Hildegarde," I said, "what on earth are you doing, child?"

"I am saying my prayers now for all summer," she answered, "so that I won't have to waste any time on them while we are away."—New York Tribune.

President Loubet, of France, will arrive in London July 6 and remain three days.

You forgot to limp when you learn to laugh.

So, 29.

IN EVERY WALK OF LIFE.

People in every walk of life have bad backs—kidneys go wrong and the back begins to ache, Cure sick kidneys and back ache quickly disappears.

Read this testimony and learn how it can be done.

A. A. Boyce, a farmer living three and a half miles from Trenton, Mo., says: "A severe cold settled in my kidneys and developed so quickly that I was obliged to lay off work on account of the aching in the back and spine. For a time I was unable to walk at all, and every makeshift I tried and all the medicine I took had not the slightest effect. My back continued to grow weaker until I was unfit for anything. Mrs. Boyce noticed Doan's Kidney Pills advertised as a sure cure for just such conditions, and one day when in Trenton she brought a box home from Chas. A. Foster's drug store. I followed the directions carefully when taking them and I must say I was more than surprised and much more gratified to notice the backache disappearing gradually until it finally stopped."

A FREE TRIAL of this great kidney medicine which cured Mr. Boyce will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

Fruit and Gout.

The strawberry season is at hand, and this delicious fruit is not without its advocates as to its advantages in rheumatism. Indeed, some have gone to the length to state that strawberries may not only be taken with impunity by the rheumatic and gouty, but with a distinct advantage, if not relief. It is a somewhat curious coincidence, therefore, that in the strawberry the presence of salicylic acid, which is a specific in acute rheumatism, has been definitely established. As a matter of fact, salicylic acid would appear to be a normal constituent of most fruits. At any rate, this acid has been found not only in the strawberry, but in grapes, apples, plums, oranges and cherries, although the amount is probably less than one milligramme (one sixtieth of a grain) per kilogramme (two pounds) of fruit. It is hardly possible, therefore, that the strawberry should have any specific medicinal effect attributable to the salicylic acid present.

A few weeks back there was recorded in our columns a formidable case of sprue in which strawberries in the diet appeared to act as a specific in the disease. As is well-known, most fruits possess anti-scorbutic properties and contain salts which readily become converted into carbonates in the system, thus tending to maintain an alkaline condition and preventing the formation of acid deposits.

The fact, however, that salicylic acid exists normally in fruits is of interest in connection with the use of salicylic acid as a preservative in jams. It is possible that some magistrates may regard this natural occurrence of the acid in fruits as a plausible defence in those cases in which proceedings are taken for the addition of small quantities of the preservative.—The Lancet.

Hard Life of Indian Women.

The Labrador Indians when on a hunt stalk in advance of the train with their arms, while the women, heavily laden with provisions and means of shelter, drag along slowly after. When the lords and masters begin to think of food or wish in any way to leave some guide as to their progress for the squaws they thrust an upright spear or stick in the snow and draw in the snow the exact line of the shadow then cast. The women, toiling painfully along, note the spear and the progress of the shadow and know closely the difference of time. They know, too, whether they dare to linger for a few minutes' rest or if they must hastily catch the stick or spear and hurry on.

The Swiss National Council has granted a credit of \$434,000 to arm the twenty-two batteries of four guns each, of the Swiss Field artillery, with the new Krupp 7.5 centimetre pneumatic recoil guns, and to provide 800 rounds of ammunition for each gun.

NEWSY GLEANINGS.

The first electrical railway was that of Siemens, at Berlin, in 1879.

The Johannesburg Public Library is now open on Sunday afternoons.

The Cathedral of Notre Dame in Paris is now lighted by electricity.

Night work has been started on the World's Fair buildings at St. Louis, Mo.

Watered milk is declared to be responsible for the great infant mortality in Paris.

Great Britain spends \$112,500,000 a year on the support of the poor. This does not include private charities.

An electrical typesetting machine will, says its inventor, revolutionize the mechanical work on a newspaper.

In England ninety-nine towns own their own gas works, the average net income being \$1,947,125 per annum.

The new nine-story hotel being built in Johannesburg will be the biggest establishment of its kind in South Africa.

An English miller has successfully tested the vitality of some wheat which was grown in 1829 and carefully preserved since.

Chicago had an attendance of 20,000 people at her World's Fair, but St. Louis counts confidently on an attendance of 40,000,000.

Ethnologists are of opinion that when America was discovered there was not on the continent of North America any more Indians than exist now.

The Municipal Council of Paris, France, has voted the sum of \$10,000 for the representation of the city of Paris at the St. Louis Exposition.

Governor Taft has agreed to take the coast guard boats being built in Japan for the American Government if \$10,000 each is deducted for defects in them.

The Swiss National Council has granted a credit of \$434,000 to arm the twenty-two batteries of four guns each, of the Swiss Field artillery, with the new Krupp 7.5 centimetre pneumatic recoil guns, and to provide 800 rounds of ammunition for each gun.

LABOR WORLD.

Carpenters in Holland receive six and one-half cents an hour.

Clerks at Kingston, Jamaica, have been successful in a Saturday half-holiday movement.

Efforts are being made in New York City to organize into one union all employees of hotels and restaurants.

Indianapolis, Ind., is trying to secure the removal of the national headquarters of the Pressmen's Union to that city.

Carpenters' organizations in the United Kingdom have over \$1,000,000 deposited to their credit in English banks.

Nearly eighty-five per cent. of the workers of France come under the provision of the national ten-hour work-day act.

St. Paul, Minn., washerwomen have formed a union. Their first demand is an increase in wages from \$1.32 a day to \$1.50.

Iron founders at Toronto, Ont., have asked for a nine-hour day at the same pay they have been receiving for ten hours' work.

Lansing, Mich., business and professional men have signed an agreement to give their employees a Saturday half-holiday until October 1.

The International Hod Carriers' and Building Laborers' Union of America has endorsed arbitration as a means of settling all labor disputes.

Once, when Hildegarde was a little girl," he will begin, "she was elated over the fact that we were all going to spend the summer at the seashore. Particularly was she elated on the night before our departure. Her eyes shone, her cheeks were flushed, and she could do nothing but dance and clap her hands for joy.
